

# MONODIN-N

It's functional, it's intelligent

BATHROOM  
SOLUTIONS FOR  
TODAY & TOMORROW

**Roca**

# Monodin-N

## It's functional, it's intelligent.

The world is constantly changing. People, habits, lifestyles, are all constantly evolving. At Roca we are aware of these needs and of new concerns involving environmental sustainability and we have renewed the Monodin collection, going for a balance between functionality, good looks and water saving.

The renewed **Monodin-N** brings more sinuous, flowing shapes. We have perfected this collection of single-handle faucets, integrating the spout into the body of the piece, forming a compact combination with the lever. In the exterior versions for bath and shower, we innovate, presenting for the first time an off-centre asymmetrical spout, giving them greater aesthetic value.

# Monodin-N

What are your requirements? Built-in faucets? Stylised ones?

The **Monodin-N** collection consists of a broad range, adapting to all your bathroom's needs and functionalities. There is also the option of equipping your kitchen with faucets from the **Monodin-N** collection.

The design does not clash with the functionality.

The new Monodin-N collection goes beyond design. Its benefits run from water/energy saving to easy cleaning. All with the quality guarantee provided by the Roca brand.

## Washbasin Faucets

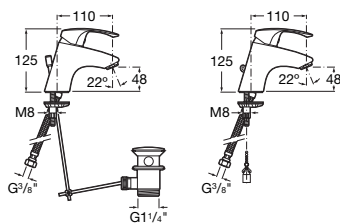

The washbasin models incorporate an exclusive water saving system. You can choose whether you want your faucet to incorporate an automatic drain. They can also have automatic supply connections.

Washbasin faucet with automatic drain.

Ref. 5A3007C00

Washbasin faucet with chain.

Ref. 5A3107C00

## Bidet Faucets

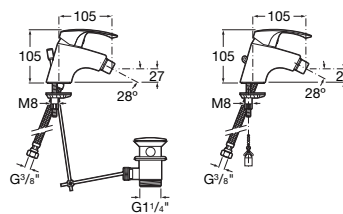

The bidet models incorporate an exclusive water saving drain. You can choose whether you want your faucet to incorporate an automatic drain. It also has flexible supply connections.

Bidet faucet with automatic drain.

Bidet faucet with chain.

Ref. 5A6107C00

### Water/energy saving.

Monodin-N saves up to 50% of water consumption. Its exclusive "click" security system helps to directly limit water flow as you have to force it up only if a stronger flow is really necessary. Like all single-handle Roca faucets, Monodin-N is compatible with the installation of flow limiters, to obtain an additional 15% saving, achieving a 65% water saving.

### Easy to clean and maintain.

The shape and design of the Monodin-N collection prevents dirt deposits; this, together with its permanent, lasting chrome plating, make cleaning easier. The result: faucets that stay like new despite the passage of time. In addition, thanks to the use of the best raw materials, maintenance is almost nil and unnecessary.

### Roca single-handle technology.

Roca faucets - and Monodin-N is no exception - are synonymous with innovation and technological development. Roca faucets have an exclusive cartridge, facilitating gentle, easy handling of the faucet.

### Roca faucet guarantee.

The best example of Roca's commitment to the safety and guarantee of its products are the 5 years' guarantee Roca offers on its whole range of faucets. After-Sales Service Roca has a technical service that ensures after-sales service together with the availability of an extensive catalogue of spare parts throughout the range of faucets.

## Bath Faucets

There are two options for your bath; exterior or built-in faucet.

Exterior bath faucet with water outlet to bath and telephone shower, also incorporating shower support and 1.70 flexible hose.

Ref. 5A0107C00

Wall-mounted bath and shower mixer without complements.
