Targa

Extraordinarily functional

Beauty and simplicity mark the tendencies of the Targa faucet range. A proposal that can fill every corner of the bathroom with freshness and originality in equal parts. With its slim, curved shapes, Targa seduces with its uniqueness and convinces with its extreme functionality.

Targa

Targa saves up to 50% of water consumption. Its exclusive "click" safety system helps to limit the water flow directly, having to be pushed upwards to obtain a greater flow. Like all Roca mixer faucets, Targa is compatible with the installation of flow limiters to achieve an additional saving of 15%, achieving a total water saving of 65%.

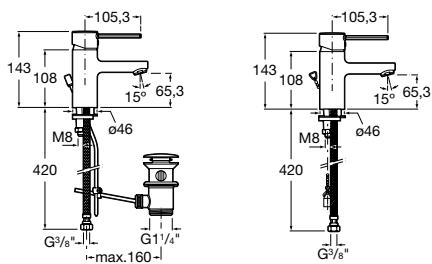

Basin faucets

The basin models incorporate an exclusive water-saving system. You can choose whether or not you want your faucet to incorporate a pop-up waste. It also has flexible supply hoses.

Design and functionality can go hand in hand.

The Targa collection goes beyond mere design. Its benefits range from water- and energy-saving to easy cleaning, all with the guarantee of quality provided by the Roca brand.

Easy cleaning maintenance.

The simplicity of forms of the Targa collection makes cleaning easier by preventing deposits of dirt. The result, along with its permanent, hard-wearing chrome finish, is a faucet that remains like new with the passing of time. In addition, thanks to the use of the finest raw materials, maintenance is virtually non-existent.

Roca mixer technology.

Roca's faucets, and Targa is no exception, are a synonym of innovation and technological development. Roca faucets have an exclusive cartridge that facilitates easy and smooth handling.

The Roca faucet guarantee.

The best proof that the Roca brand is committed to the safety and durability of its products is the 5-year guarantee the firm offers in all its range of faucets.

After-sales service.

Roca has a technical service that guarantees after-sales service and the availability of an extensive catalogue of spare parts in all its range of faucets.

Targa-T

Roca thermostatic faucets provide constant water temperature in the minimum time, achieving a high level of comfort and a saving of water and energy for the user.
